# OSA PUBLISHING'S DIGITAL LIBRARY

Access the largest collection of peer-reviewed optics and photonics content via OSA Publishing's Digital Library, which includes articles from all of OSA's prestigious journals and partner journals. OSA Publishing's Digital Library contains more than 272,000 articles from 17 journals, OSA's flagship magazine, and proceedings from over 470 conferences.

## ► MOST-CITED.

Our journal content offers the most citations (41%) and articles (34%) of any other publisher in the Optics category of the 2014 Journal Citation Reports® (Thomson Reuters, 2014).

## ► HIGHEST-QUALITY.

OSA is the trusted source for innovation in optics and photonics. Scientists regularly turn to the content published in OSA Journals to meet their research needs. High-quality, rigorous peer-review is the cornerstone of our publishing program and it is strictly maintained under the guidance of expert reviewers and editors. Since 1916, OSA has published seminal research, including the findings of thought leaders, Nobel Prize winners, and inventors who have changed the technological landscape.

## ► GLOBAL REACH.

Uniting over 220,000 professionals from 175 countries, OSA brings together the global optics and photonics community through its publishing program. Our articles come from authors around the world, and our content is distributed broadly through a large network of institutional subscriptions and a robust Open-Access program.

# NEW PRODUCTS AND SERVICES

## INTRODUCING OSA'S NEW PLATFORM: OSA PUBLISHING

In January 2015, OSA will launch its new digital platform—OSA Publishing. The new name allows OSA to better distinguish the content that it publishes from the various

subscription packages that it offers, and the significantly updated platform enables users to more easily discover and access all of OSA's content.

Additionally, the new platform provides users with a highly optimized search functionality, and as a result of the completion of a 3-year initiative to convert all of OSA's back content to a standardized format, users will enjoy greater access to all content. Along with the improved search capability, OSA Publishing will also feature user-friendly journal and article page layouts and a revamped Library Resource Center for librarians.

## NEW JOURNAL: OPTICA

*Optica* is OSA's new Open-Access journal dedicated to the rapid dissemination of high-impact results in all areas of optics and photonics. Launched in July 2014 and led by Editor-in-Chief Alex Gaeta of Cornell University, *Optica* appeals to a broad scientific audience. See page 9 for more details.

OSA is proud that its collection of flagship, partnered, and co-published, peer-reviewed journals provide the most citations (41%) and articles (34%) in the field of optics and photonics, according to the 2014 Journal Citation Reports® (Thomson Reuters, 2014). Of the 82 journals listed in the JCR's Optics category, 5 OSA Journals are included in the top 15 titles, ranked by Impact Factor.

## OPTICS CATEGORY RANKINGS

Journal	Impact Factor	Total Citations	Rank by Impact Factor	Rank by Total Cites
AOP	9.688	660	2	49
OpEx	3.525	71,343	6	2
BOEx	3.497	2,614	7	29
OL	3.179	50,507	10	3
OMEx	2.923	1,223	13	41
JLT	2.862	15,562	16	7
JOSA B	1.806	11,587	26	11
JDT	1.686	1,481	28	36
AO	1.649	37,117	29	4
JOCN	1.547	799	33	45
JOSA A	1.448	12,602	38	10
COL	1.073	1,473	52	37
JOSK	0.957	302	56	66
JOT	0.24	483	80	58

A complete listing of OSA Journals' Impact Factor and Eigenfactor rankings are at [www.osa.org/librarians](http://www.osa.org/librarians).

## Advances in Optics and Photonics

*Advances in Optics and Photonics* (AOP) publishes comprehensive review articles and multimedia tutorials appropriate for students, researchers, faculty, business professionals, and engineers. This authoritative content covers advances in optics and photonics from fundamental studies to engineering applications.

## Applied Optics

*Applied Optics* (AO) publishes peer-reviewed articles related to applications-centered research in optical technology, lasers, photonics, environmental optics, sensing, and information processing. Articles concentrate on moving the potential of science and technology to the practical and include the development and performance of technologies when applying theories.

## Journal of Optical Technology

The *Journal of Optical Technology* (JOT) is an English-language translation of the Russian journal, *Opticheskii Zhurnal*, which originates from the S.I. Vavilov State Optical Institute. JOT publishes design details of a diversity of optical instruments, along with a strong section on computational optics useful to engineers, mathematicians, and physicists, as well as optical scientists. Issues of the English translation volume appear at the same time as the original Russian language edition.

## Optica

*Optica* is OSA's new Open-Access Journal dedicated to the rapid dissemination of the highest impact results in all areas of optics and photonics. This online-only Journal publishes original peer-reviewed research articles, letters, and mini reviews that appeals to a broad audience. A highly selective Journal, *Optica* is a venue for authors to publish their most exciting work, be it theoretical or experimental, fundamental or applied.

## Photonics Research

OSA and Chinese Laser Press co-publish this peer-reviewed, Open-Access, online-only journal on theoretical and applied research progress in optics and photonics. Topics include lasers, LEDs and other light sources; fiber optics and optical communications; imaging, detectors and sensors; novel materials and engineered structures; optical data storage and displays; plasmonics; quantum optics; diffractive optics and guided optics; medical optics and biophotonics; ultraviolet and x-rays; and terahertz technology.

## OTHER PRODUCTS

### Conference Proceedings Package

Subscribe to the complete collection of over 470 OSA conference proceedings, including CLEO, FiO, OFC and all OSA Topical Meetings. Conference names and years of coverage are listed at [www.opticsinfobase.org/conferences.cfm](http://www.opticsinfobase.org/conferences.cfm).

FREQUENCY: **Over 30 new conferences to be added in 2015.**

PUBLISHER: **OSA**

ISSN: **2162-2701**

**\$2500** ONLINE ONLY

### Major Meetings Series

Access the complete package of proceedings from one of the Major Meetings. There are 3 to choose from:

- ▶ Conference on Laser and Electro-Optics (CLEO)
- ▶ Frontiers in Optics (FiO)
- ▶ Optical Fiber Communications Conference (OFC)

**\$750** AVAILABLE ON CD-ROM

### Single Conference

Access one year of proceedings from one of OSA's major meetings (FiO, CLEO, or OFC).

**\$250** AVAILABLE ON CD-ROM

### Optoelectronics Industry Development Association (OIDA) Reports

OIDA is a non-profit partner association to OSA that specializes in producing market data reports on the current and future status of the industry and its various sectors. OIDA also creates roadmap reports that project the future of specific products and technology areas over a range of 1–10 years. The Reports are of key interest to professionals in the optoelectronics component, system provider, and research and business communities.

#### OIDA Industry-wide Market Reports

**\$5,000 EACH REPORT.** AVAILABLE ON CD-ROM

#### OIDA Vertical Market Reports

**\$2,500 EACH REPORT.** AVAILABLE ON CD-ROM

#### OIDA Workshop and Roadmap Reports

**\$500—\$1,000/EACH REPORT.**

Visit the OIDA homepage at [www.oida.org](http://www.oida.org) for more detailed product descriptions.

## E-SUBSCRIPTION PACKAGES

OSA offers two packages to access all 2015 content: Optics InfoBase and Optics InfoBase Premium.

The **Optics InfoBase Package** provides access to 17 flagship, partnered, and co-published journals; OSA's magazine, *Optics & Photonics News*; and the conference proceedings from OSA's Topical Meetings.

The **Optics InfoBase Premium Package** offers access to the same content and augments it with the valuable conference proceedings from OSA's major meetings (FiO, CLEO, OFC); unlimited access to OSA's Optics ImageBank, a searchable database with more than 750,000 journal images; and access to the eBook version of Anthony Seigman's *Lasers* textbook.

OSA is pleased to offer a one-time purchase option for perpetual access to the OSA Digital Archive.

The OSA Digital Archive provides pioneering research in optics and photonics, including articles published by Nobel Laureates and prestigious members of the physics and engineering communities.

### Covered Content

The OSA Digital Archive includes approximately 108,000 articles and conference proceedings from the following OSA Publications:

- ▶ **Applied Optics** 1962–2005
- ▶ **Journal of the Optical Society of America** 1917–1983
- ▶ **Journal of the Optical Society of America A** 1984–2005
- ▶ **Journal of the Optical Society of America B** 1984–2005
- ▶ **Optics and Photonics News** 1990–2005
- ▶ **Optics Express** 1997–2005
- ▶ **Optics Letters** 1977–2005
- ▶ **Optics News** 1975–1989
- ▶ **OSA Conference Proceedings** 1979–2005

Contact [elec@osa.org](mailto:elec@osa.org) for pricing and additional details.

OSA is committed to providing high-quality content and service. Please contact us with your comments, suggestions, or questions at any time.
